

Tyler's Odyssey[®] SessionWorks Judge Edition

Courts have been migrating to paperless systems for years. However, judges are often still heavily dependent on paper inside the courtroom. The truth is paper provides the information you need while letting you stay focused on what's happening inside the courtroom. Paper is easy and familiar. Software solutions haven't been able to provide the same experience... *until now.*

Tyler's Odyssey[®] SessionWorks Judge Edition empowers you to control case information efficiently and securely right from the bench using the latest technology. Eliminate papers and file folders. View essential case information. Access and bookmark vital documents. Easily enter and attach notes. Using powerful touch screen capabilities, you can concentrate on matters before you, not the keyboard or stack of file folders in front of you.

Benefits include:

- Control case information efficiently and securely right from the bench
- Find information quickly with powerful, easy to use touch screen capabilities
- Eliminate paper files and folders for a more efficient courtroom
- Work with multiple defendants or cases simultaneously
- Gain immediate access to electronic case files

Easy to Use

Similar to smart phones with touch screen capabilities, Tyler's Odyssey[®] SessionWorks Judge Edition is so easy to use that little to no training is required. Need to access a particular case file? Simply touch it on your screen and the file opens automatically. Want a closer look? Just zoom in with the pan touch method and read detailed information. Not comfortable with a multi-touch approach? Not to worry, you can also use an on screen navigation bar or a keyboard and mouse if you prefer.

Built For Speed

Designed with judges' needs in mind, SessionWorks Judge Edition gives you all the necessary tools to administer justice efficiently and effectively right from the bench. When pronouncing judgments, you can't be distracted by slow and antiquated software. You need a solution that keeps up with the demands of your courtroom. SessionWorks Judge Edition was built for speed, so you can focus quickly and easily on information that matters most.

Comprehensive Data at Your Fingertips

Having case information at your fingertips involves more than just presenting documents. Odyssey SessionWorks also provides a wealth of data about the case with a single touch, including the defendant's personal demographic information, all charges and documents related to the case, mug shots and more. Just tap the case file folder and the rich data set from Odyssey Case Manager is instantly available. You can now view a full representation of the case on your screen in just minutes.

...continued on reverse

Odyssey Sets the Standard

Tyler's Odyssey solution sets the standard for courts and justice software with unprecedented scalability, integration capabilities and Web-based navigation. That was true when it was originally introduced and, through continued innovation, it's still true today.

Empower your
ORGANIZATION with Tyler's
Odyssey **SOLUTION**

Tyler's Odyssey® SessionWorks Judge Edition

Personalized Workspace

The SessionWorks Judge Edition home page was created to resemble your bench desktop. This personal workspace provides access to a variety of powerful courtroom tools that are only a touch away. By simply scrolling up and down you're able to access your calendar, view items or sessions on your docket plus have immediate access to your email and other frequently used applications.

Powerful and Secure

As with all Odyssey products, superior security is inherently built into the SessionWorks system architecture to protect and store sensitive court data. Thanks to powerful, configurable security settings, notes entered in the courtroom remain localized and secure. Also Odyssey SessionWorks enables you to continue running your court even if connection with your primary servers is lost. Inherent data redundancy within the application architecture ensures that when your network connectivity or servers fail, you can continue to use the application and keep your courtroom running.

Leading Edge Technology

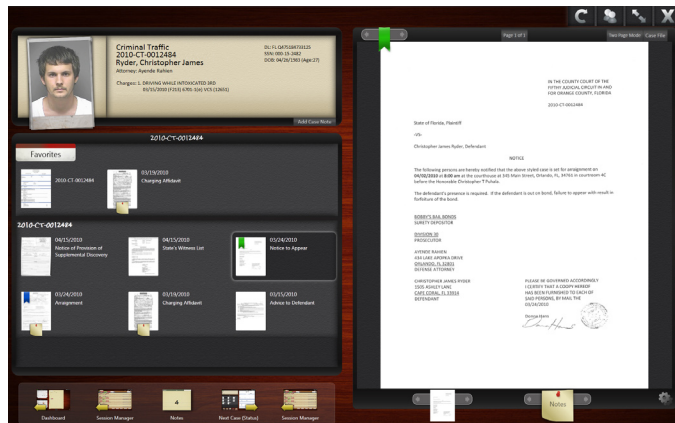

Odyssey® SessionWorks Judge Edition is based on Microsoft® Windows 7 technology and can work with most touch-enabled PC screens. Together, this innovative technology puts the power of Tyler's Odyssey Case Management solution at your fingertips. However, the application was built with the utmost flexibility and does not require a touch screen in order to function. The same actions and tasks can be accomplished by simply using a keyboard and mouse. Minimal configuration is needed to begin using SessionWorks, and it works seamlessly with your current Odyssey system.

Trust in the Market Leader

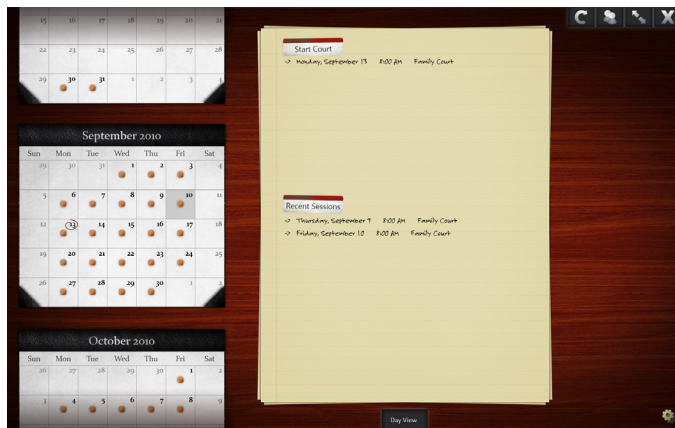

With hundreds of judicial clients, including many statewide clients and some of the largest judicial courts in the country, Tyler Technologies' sole business focus is providing software solutions and services to the public sector. Tyler has a depth and breadth of knowledge of the courts and justice market that uniquely positions us as a leader in this space. Our goal is to partner with you on every aspect of your business to ensure continued success.

Tyler Technologies has developed Odyssey® SessionWorks Judge Edition, a powerful and fast touch-screen application that puts the power of Tyler's Odyssey Case Management solution at your fingertips. It's quick. It's easy. It's comprehensive. It's Odyssey® SessionWorks Judge Edition. Command this emerging technology with a simple touch.
